FEDERAL MILK ORDER MARKET STATISTICS

JUNE HIGHLIGHTS

MINIMUM CLASS I PRICE, \$10.50; BLEND, \$9.29

PRODUCER DELIVERIES UP 3.5 PERCENT

PRODUCER MILK USED IN CLASS I UP 1.8 PERCENT

48 PERCENT OF DELIVERIES USED IN CLASS I

IN-AREA FLUID MILK SALES (ADJUSTED) DOWN 0.7 PERCENT

U.S. DEPARTMENT OF AGRICULTURE AGRICULTURAL MARKETING SERVICE DAIRY DIVISION WASHINGTON, D.C.

ISSUED - August 1976

FMOS - 198

TABLE OF CONTENTS

авте	NO.	Page No.
	Summary	3
1.	Federal order fluid differentials, July and August 1976; minimum Class I prices for milk of 3.5 percent butterfat content f.o.b. market or other indicated point, and butterfat different i als, July 1975 and 1976 and Class I price, August 1975 and 1976	7
2.	Federal order minimum Class and blend prices for milk of 3.5 percent butterfat content, f.o.b. market or other indicated point, and butterfat differentials, June	8
3.	Federal order minimum Class and blend prices for milk of 3.5 percent butterfat content, f.o.b. market or other indicated point, January 1976 to date, averages	10
4.	Number of producers delivering milk to handlers regulated under Federal orders, total deliveries and average daily deliveries per producer, June	12
5.	Producer milk deliveries used in Class I and gross Class I sales by handlers regulated under Federal orders, June	14
6.	Producer milk deliveries used in Class II by handlers regulated under Federal orders which have three classes of utilization, June and year to date with comparisons	16
7.	Producer milk deliveries to handlers regulated under Federal orders and deliveries used in Class I, January 1976 to date	18
8.	Whole milk, lowfat and skim milk items sold in marketing areas defined by Federal milk orders, for markets where such information is available, May 1976, with comparisons	20
9.	Daily average sales of individual whole milk items, lowfat and skim milk items, in 54 selected marketing areas defined by Federal milk orders, Janaury 1976 to date, with comparisons	22
10.	Packaged sales of whole milk, lowfat and skim milk items, milk and cream mixtures, cream items, and total fluid items by handlers regulated under Federal milk order markets, grouped by regions, May 1976, with comparisons	24
11.	Packaged sales of milk and cream mixtures, cream items, yogurt, and eggnog by handlers regulated under Federal order markets, for those markets where comparable data are available, January 1976 to date, with comparisons	25
12.	Milk, skim milk and cream utilized in the manufacture of dairy products by handlers regulated under Federal milk order markets, grouped by regions, May 1975	26
13.	Milk, skim milk and cream utilized in the manufacture of dairy products by handlers regulated under federal milk order markets, grouped by regions, May 1976	27
14.	Percentage of whole milk equivalent used in the production of manufactured dairy products, in 54 selected Federal order markets, January 1976 to date, with comparisons	28
15.	Federal order base and excess prices for milk of 3.5 percent butterfat content, June	29
16.	Seasonal incentive fund excluded under various Federal milk orders, June	29
17.	Dairy product prices and manufacturing milk prices, January 1976 to date, with comparisons	30
18.	U.S. milk prices, U.S. milk feed ratio, and general price measures, January 1976 to date, with comparisons	31
19.	Retail prices paid by consumers for dairy products, United States, January 1976 to date, with comparisons	32
20.	Prevailing prices paid by consumers for the most common grade of whole milk, skim milk, ice cream, cheese, American process, and butter, 23 cities, June 1976, with comparisons	32
21.	U.S. production, January 1976 to date with comparisons	33
22.	Commercial and government storage holdings, January 1976 to date, with comparisons	33
23.	U.S.D.A. purchases (Delivery basis), January 1976 to date, with comparisons	3 4
24.	Major order actions. June 1976	35

1/ Percentages computed from unrounded pounds. Data for February 1976 adjusted to a 28-day basis before computing percentage changes.

Z/ Excludes Middle Atlantic, January to present. Excludes Greater Louisiana and New Orleans-Mississippi, April to present. Excludes Upper Midwest beginning in June; see Major Order Actions, June 1976, on page 35. Also, effective April 1, Boston Regional and Connecticut were merged to form New England; the data for the merged market remain comparable.

Z/ Average or total.

1/ Total packaged disposition, in and out of the marketing area, by regulated handlers. Besides receipts from producers, these dispositions also may include receipts from other Federal order plants and/or receipts from other sources.

2/ Plain and flavored whole milk.

3/ Plain, fortified, flavored skim and lowfat milk, and buttermilk.

4/ Light, heavy, and sour cream, and cream dips.

5/ Includes eggnog and yogurt.

5/ Includes eggnog and yogurt.

6/ Data for February 1972 and 1976 adjusted to a 28—day basis before computing percentage changes.

7/ During January 1974, there was a change in the reporting of the sales of cream items. As a result, the percent change over the previous year is somewhat overstated.

8/Represents the data for all Federal milk order markets, except New York-New Jersey. Data for comparable Federal milk order

markets can be found on tables 10 and 11.

9/ The decreased number of markets reflects the merger of Boston Regional and Connecticut. See "Major Order Actions, April 1976" in FMOS - 196, April 1976.

1/ Includes producer milk and some other source milk used to produce manufactured dairy products in regulated pool plants as well as milk diverted and shipped to non-order plants for processing. Some data are partially estimated.

2/ Includes, in addition to listed manufactured products, milk, skim milk, and cream used in other manufactured dairy products, i.e. evaporated milk, condensed milk, whole milk powder, aerated, and frozen and plastic cream; and, milk, skim milk, and cream used in other food products as well as used in animal feed, dumped or spilled, plant loss and unidentified.

2 Percentage changes over previous year are based on pounds of butterfat, except for skim milk powder which are based on pounds of

product.

4/ Data for February adjusted to a 28-day basis before computing percentage changes.

5/ Excludes New York-New Jersey.

6/ The decreased number of markets reflects the merger of Boston Regional and Connecticut. See "Major Order Actions, April 1976" in FMOS - 196, April 1976.

In-area sales represent total sales in each of the areas by handlers regulated under the respective orders, by handlers regulated Sales routes of handlers may extend outside defined under other orders, by partially regulated handlers, and by producer-handlers. marketing areas; therefore, some handler in—area sales are partially estimated.

Percentages based on the same number of comparable markets in both years. Data for February 1972 and 1976 adjusted to a 28-day basis Plain, fortified, and flavored skim and lowfat milk, and buttermilk. 2/ Plain, and flavored whole milk, 3/ Plain, fortified, and flavored s 4/ Percentages based on the same no before computing percentage changes.

5/ Adjusted to eliminate variations in data due to calendar composition and seasonality. See special article in FMOS - 196, April 1976.
5/ Excludes the New York-New Jersey, Upstate Michigan, Fort Smith, and Western Colorado markets.
7/ Excludes the New York-New Jersey, Fort Smith, Lake Mead, Western Colorado, and Mississippi markets.
8/ Excludes New York-New Jersey.
7/ The decreased number of comparable markets reflects the merger of Boston Regional and Connecticut. See "major Order Actions, April 19

The decreased number of comparable markets reflects the merger of Boston Regional and Connecticut. See "major Order Actions, April 1976"

in FMOS - 196, April 1976. The data for the merged market remain comparable.

Estimated.

Table 1.—Federal order fluid differentials, July and August 1976; minimum Class I prices for milk of 3.5 percent butterfat content, f.o.b. market or other indicated point* and butterfat differentials, July 1975 and 1976; and Class I price, August 1975 and 1976

^{*} Generally the major city in the marketing area. See footnotes on table 2 for location.

1/ The basic formula price is the Minnesota-Wisconsin price for the second preceding month adjusted to a 3.5 percent butterfat content.

2/ Tied to the St. Louis-Ozarks order.

3/ See Major Order Actions, June 1976, on page 35.

4/ Tied to the Oklahoma Metropolitan order.

^{*} Preliminary.

1/ Based on markets where orders were effective entire period, 1975-76, and which have had no significant marketing area expansions.

Excludes Middle Atlantic, Upper Midwest, Greater Louisiana, and New Orleans-Mississippi.

2/ The data for the Central Arkansas and Fort Smith markets have been combined in order to mask restricted data.

Table 6.—Producer milk deliveries used in Class II by handlers regulated under those Federal orders which have three classes of utilization, June and year to date with comparisons $\underline{1}/$

^{1/} In-area sales represent total sales in each of the areas by handlers regulated under the respective orders, by handlers regulated handlers, and by producer-handlers. Sales routes of handlers may extend outside defined marketing areas; therefore some handler in-area sales are partially estimated.

10/ Small amount of sales estimated.

reas; therefore some handler in-area sales are partially estimated.

2/ Plain and flavored whole milk,

3/ Plain, fortified, and flavored skim and lowfat milk and buttermilk.

4/ Data for February 1976 adjusted to a 28-day basis before computing percentage changes.

5/ Sales represent the marketing area after the merger of Boston Regional and Connecticut, April 1, 1976.

6/ Sales represent the marketing area after the expansion of June 1, 1975. Data are estimated.

7/ Sales represent the marketing area before the expansion of April 1, 1976. Data are estimated.

8/ Sales represent the marketing area after the merger and expansion of North Texas, Central West Texas, Austin-Waco, San Antonio, Corpus Christi, and South Texas, July 1, 1975.

2/ Figures adjusted to eliminate variations due to calendar composition. See special article in FMCS - 196, April 1976.

Section 709, Section 32, and Section 4A Programs. Minuses denote domestic sales exceeded purchases. $\frac{1}{2}$ "Dairy Price Support Activity Report," ASCS. $\frac{2}{2}$ U.S.D.A. purchases (delivery basis) of butter, cheese, and evaporated milk, minus U.S.D.A. domestic sales for unrestricted use of butter and cheese; includes purchases under price support,

 $\frac{3}{4}$ Includes 4,013 thousand pounds of instant nonfat dry milk. $\frac{4}{4}$ Includes 29 million pounds (milk equivalent) of evaporated milk. $\frac{5}{2}$ Includes 53 million pounds (milk equivalent) of evaporated milk.

MAJOR ORDER ACTIONS, JUNE 1976

Amendment and Merger:

Minnesota-North Dakota Southeastern Minnesota-Northern Iowa Minneapolis-St. Paul Duluth-Superior

Four Markets - June 1 (41 FR 18057, 4/30/76). The four marketing areas are merged into a single "Upper Midwest" marketing area. In addition, the new area also includes 19 previously unregulated counties in Minnesota and 17 in Wisconsin. Also included in the new area are five South Dakota counties that were previously in the northern part of the Eastern South Dakota marketing area.

A <u>distributing plant</u> is pooled if its total route disposition as a percent of its total Grade A fluid milk products received in bulk is at least equal to the marketwide Class I utilization during the same month of the preceding year, and if 15 percent of its receipts is disposed of as route disposition in the marketing area.

A <u>supply plant's</u> shipments to pool distributing plants as a percent of its Grade A receipts must at least equal the marketwide Class I utilization during the same month of the previous year.

Both distributing and supply plants are pooled if they met the pooling standards during the immediately preceding three months but failed to meet the performance standards in the current month.

A reserve supply plant must: (1) be located in the marketing area; (2) have average daily receipts of Grade A milk from dairy farmers during the month of not less than 25,000 pounds; (3) ship at least one tank truck load of Grade A milk (at least 45,000 pounds) to a pool distributing plant or to a comparable plant under another Federal order within the past 12 months; (4) file a request for pooling with the market administrator at least 15 days prior to the first day of the month in which pool status is desired; (5) ship a portion of its milk whenever the market administrator issues a notice that milk for Class I use is needed; and (6) have been a pool plant under this order during each of the preceding months of September through December to be a pool plant during the following months of January through June.

A cooperative association is the <u>handler</u> on bulk tank milk which it received for its account from the farm of a producer for delivery to a pool plant in a tank truck under the control of the cooperative. If there is mutual agreement between a cooperative and a plant operator that the plant operator will be the handler for such milk and purchases such milk on the basis of farm weights and tests, then the cooperative is not required to be the handler on such milk.

A <u>producer-handler</u> can receive fluid milk products from another order plant as well as from pool plants of other handlers.

<u>Diversions</u> of producer milk by cooperative associations and handlers to nonpool plants are <u>limited</u> to the combined Class II and III utilization for the market in the same month of the prior year. Proprietary pool plant operators may divert without limit to another pool plant.

The market is divided into four pricing zones with the <u>Class I price</u> in Zone 1 equal to the basic formula price for the second preceding month plus \$1.12.

The <u>location adjustments</u> in each of the four pricing zones is as follows: Zone 1 = none; Zone 2 = minus 6 cents; Zone 3 = minus 10 cents; and Zone 4 = minus 16 cents.

The market administrator is to compute a <u>uniform price</u> to producers based on estimated pool values. This price is to be announced by the llth day after the end of each month, one day after handlers' reports of receipts and utilization are due.

<u>Partial payments</u> to producers are required by the 25th day of the month for milk received during the first 15 days of the month. If the cooperative association is the operator of a pool plant, the partial payment from such plant should be at the Class I price for the month. Partial payments by other operations are generally at the uniform price for the preceding month.

Final payments for milk are due by the 18th day after the end of the month.

MAJOR ORDER ACTIONS, JUNE 1976 -Continued

<u>Charges on overdue handler obligations</u> to the producer-settlement fund will be at the rate of three-fourths of one percent per month. The charge will apply on the day following the date on which the obligation is due.

The maximum rate to handlers for administration of the order is set at 3 cents per hundredweight.

The maximum deduction for <u>marketing services</u> provided by the market administrator is set at five cents per hundredweight.

Amendments:

Eastern Ohio-Western Pennsylvania - June 1 (41 FR 18055, 4/30/76). The charges on overdue accounts are increased to 1 percent per month. These charges apply on the third day that a payment is overdue.

The announcement of the uniform price by the market administrator is advanced to the 13th day of the month.

Eastern South Dakota - June 1 (41 FR 18056, 4/30/76). The marketing area is expanded to include the previously unregulated counties of Lincoln, Pipestone, and Nobles in Minnesota; and Brookings and Deuel in South Dakota.

A governmental agency plant is added to the list of nonpool plants exempted from regulation.

The Class I differential is lowered to \$1.40.

Minus <u>location adjustments</u> are provided for plants located in Minnesota, North Dakota, and that portion of South Dakota north of US. Highway 90. The adjustments are based on the distance from the nearer of Mitchell or Sioux Falls, South Dakota at the rate of 1.5 cents per 10 miles.
